

Faucets & Fixtures Care and Cleaning

Please follow the below instructions and recommendations to care and maintain for your new faucet and / or fixtures.

For best results, only use warm water and a mild detergent for cleaning. If another cleaner is used, please check the label to make sure that it is safe for use on the material being cleaned. If unsure, it is always recommended to test the cleaning detergent on a small obscured area first.

Make sure to wipe any excess cleaners off with a damp sponge or cloth, and then rinse with water. Dry the surface with a soft cloth until dry after each use.

Never use abrasive materials or cleaners that contain ammonia, bleach or acid, as they can cause damage to the finished surface.

Should you have any questions, please feel free to contact us at (416) 240-0088.
