CERTIFICATIONS

NORTH AMERICAN STANDARDS

All of our products are CSA certified, meeting safety and performance standards for both Canadian and U.S. markets. This certification ensures our products are independently tested and fully compliant with recognized national standards.

WATERSENSE CERTIFICATION

WaterSense is an EPA-backed certification that identifies products designed to reduce water use without sacrificing performance. Fixtures with the WaterSense label use at least 20% less water than standard models, making them a smart choice for efficiency-focused residential and commercial projects.

The Vitreous China Sink Collection

Natural Harmony & Timeless Simplicity

TIMELESS ELEGANCE ROOTED IN NATURE

Our vitreous china sinks are made from natural clay, which comes from minerals shaped by water over time, just like the formations found in the ocean. When fired at high temperatures, this clay becomes strong and smooth. Inspired by the beauty and strength of the sea, our sinks feature timeless designs that bring lasting elegance to any bathroom.
