CANTRIO

TAILORED BY DESIGN

Custom Vanities, Without Compromise

At Cantrio, custom isn't an upgrade — it's our standard. We work with our customers to design and manufacture made-to-measure vanities that match the scale, finish, and functionality of your project with little to no limitations. Whether it's a bold statement piece suited for a luxury hotel or a streamlined solution in a multi-unit development, our vanities are built to order and for long-term performance.

From wall-mounted configurations to integrated sink tops, every element can be tailored — width, depth, finish, countertop, and hardware — to create a solution that works as beautifully as it looks.

With full control over size, material, and detailing, our custom vanities are engineered for architects, interior designers, and developers who demand precision at every stage.

THE SOURCE *of* QUALITY

Our team of skilled craftsmen and designers brings together innovation, precision, and style to create bathroom vanities and washbasins that are as functional as they are beautiful. From sleek minimalism to timeless tradition, our collections offer a range of designs to suit every aesthetic.

We take pride in delivering consistently high quality through reliable logistics and attentive service, on time and with care. Trusted by professionals around the world, Cantrio is known for excellence in both product and experience. We adhere to strict international standards for quality and environmental management, applying the most advanced systems in the industry. Our products are crafted using premium materials—including high-quality resin, aluminum powder, and eco-friendly coagulants—chosen for their durability, resistance to yellowing, and structural integrity. Unlike traditional stone or ceramic, our engineered surfaces offer enhanced performance and long-lasting beauty, delivering the luxurious look of natural materials with superior resilience and consistency.

CANTRIO

WARRANTY

CANTRIO VANITY INSTALLATION

The warranty covers all defects in labor specifically resulting from unboxing, leveling, and installing countertop / lavatory to the vanity base for a period of one year from the date on which the owner originally purchased the product. This warranty is valid for the original owner only.

This warranty does not apply to cases in which a product was incorrectly installed, nor to damage due to negligence, improper care or cleaning, abuse, misuse, thermal shocks, cigarettes, flames, or other accidents.

Any transformation or alteration made to a CANTRIO product automatically voids the warranty.

CANTRIO will, at its election, repair, replace, or make appropriate adjustment where CANTRIO inspection discloses any such defect. The manufacturer's warranty is limited to repair or replacement (with a product of equal value) provided the claim is made directly to CANTRIO within the warranty period. CANTRIO is not responsible for removal, installation, labor charges, or other incidental or consequential costs. In no event shall the liability of CANTRIO exceed the installation costs.

CANTRIO VANITY BASES

The warranty covers all defects in materials and manufacturing for a period of three years from the date on which the owner originally purchased the product. This warranty is valid for the original owner only.

This warranty does not apply to cases in which a product was incorrectly installed, nor to damage due to negligence, improper care or cleaning, abuse, misuse, thermal shocks, cigarettes, flames, or other accidents.

Any transformation or alteration made to a CANTRIO product automatically voids the warranty.

CANTRIO will, at its election, repair, replace, or make appropriate adjustment where CANTRIO inspection discloses any such defect. The manufacturer's warranty is limited to repair or replacement (with a product of equal value) provided the claim is made directly to CANTRIO within the warranty period. CANTRIO is not responsible for removal, installation, labor charges, or other incidental or consequential costs. In no event shall the liability of CANTRIO exceed the purchase price of the vanity base.

The Bespoke
Design Experience

We start with your vision — no matter what size, style, finishes, and end-use. Our team creates CAD drawings for approval, then builds your vanity to spec with your chosen materials. It's delivered ready for installation.

THE PROCESS

Transforming your vision into reality is simple. We offer a limitless spectrum of customization options. From dimensions to bowl configurations for integrated sink tops, apron heights, finishes, colours, doors, drawers, shelves & hardware. Every detail is tailored to your specifications.

1 *Consultation*

We start with your vision — dimensions, use-case, and material preferences. Choose from our existing vanity gallery, request modifications to a current style, or work with us to create a fully custom design from scratch.

2 *Engineering*

Our team produces detailed CAD drawings for review and approval of material preferences. This ensures every detail aligns with your design intent before manufacturing begins.

3 *Materials*

Choose from our vast array of Quartz, Solidtech, and Marble for countertops, HPL Wood for vanity bodies, and metal finishes for integrated hardware.

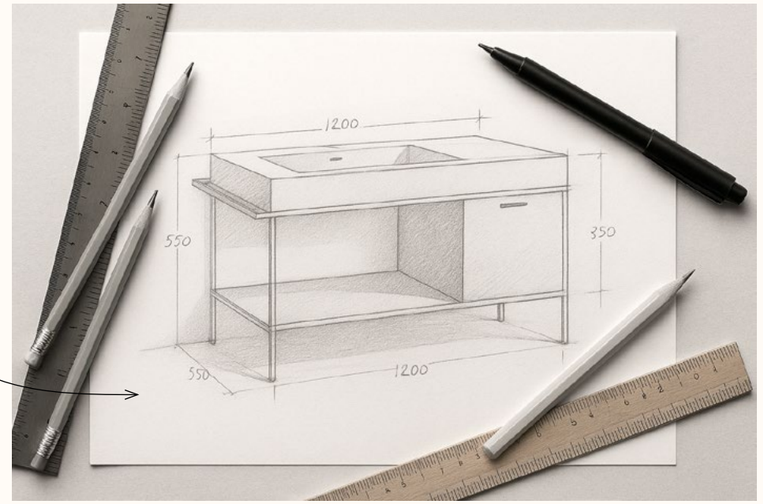

4 *Manufacturing*

Each piece is made to measure and built to spec, with meticulous quality control carried out by our in-house team and trusted fabrication partners.

5 *Delivery*

Securely packaged and delivered ready for install. We coordinate with your team to ensure seamless delivery, with all components protected and labeled for efficient on-site handling. Every order arrives job-site ready to minimize downtime and streamline installation.
